SUPPLY TABLE
OF THE
MEDICAL DEPARTMENT,
UNITED STATES ARMY.

1894.

WAR DEPARTMENT,
SURGEON GENERAL'S OFFICE,
WASHINGTON, April 25, 1894.

The following is the Supply Table of the Medical Department of the United States Army, and its provisions and requirements will be in force from this date.

GEO. M. STERNBERG,
Surgeon General, U. S. Army.

Approved :

DANIEL S. LAMONT,
Secretary of War.

WAR DEPARTMENT, April 26, 1894.

UH

U5655

1894

SUPPLY TABLE.

1. The Supply Table enumerates the medical supplies issued to the U. S. Army, and the quantities and sizes of original packages. Supply Table.

It is the policy of the Medical Department to supply, from time to time, new remedies of determined therapeutic value; but newly introduced remedies desired only for experiment and such as offer no manifest advantage over those already issued will not be supplied. It should be borne in mind that these supplies are selected for *the military service*. It is believed that all necessary articles are included and that the quantities allowed will be found sufficient under ordinary circumstances.

Requisitions for particular preparations simply because they are agreeable to the taste, or to save trouble in compounding, will not be approved; nor will preparations of a drug be furnished when one or more practically equivalent ones are on the list.

2. The senior medical officer of every post will make annual requisitions for medical supplies for the year commencing January first, unless another date is fixed by the Surgeon General. Such requisitions will be made in triplicate and forwarded to the medical director, or, in the case of independent posts, in duplicate, to the Surgeon General. Annual requisitions.

Medical directors will see that annual requisitions do not call for any article not on the Supply Table nor for quantities in excess of those therein allowed. They will forward one copy to the Surgeon General, one, with their approval, direct to the medical supply depot designated by the Surgeon General for issue, and will retain one in their office.

a. Annual requisitions will not be forwarded to the medical director more than twenty days before the date at which the period they cover begins. They will be made only for articles that are, or probably will be, needed during the year, will state the quantity of all articles on hand, *as verified by a medical officer* in accordance with par. 18 b, and will give the total number of persons entitled

by regulations to medicines. Quantities on hand will be deducted from the quantities allowed by the Supply Table.

b. Medical directors at their inspections will carefully investigate the method of preparing requisitions, particularly as to the necessity for the quantities asked for and the accuracy with which the amounts on hand are stated.

Supplies for temporary posts, subposts, and camps.

3. Requisitions for supplies for temporary posts or for those soon to be abandoned will be confined to such articles as are absolutely necessary.

a. Subposts and camps will, in absence of orders to the contrary, obtain such medical supplies as may be required by requisition upon the senior medical officer of the post to which they are subsidiary, who will issue them after approval by the medical director.

All articles not issued to smaller posts.

4. It is not expected that the smaller posts will require for all the articles included in these lists, and the local prevalence or rarity of certain diseases, as well as the quantity or number on hand of each article, will be considered in the preparation and approval of requisitions.

Special requisitions.

5. When medical supplies are absolutely necessary before the annual requisition is prepared they should be required for upon a special requisition, in triplicate, giving a list of the articles needed, and the quantity on hand, and giving explicit reasons for the necessity of such requisition. These will be transmitted through the medical director, who will retain one copy and will forward two to the Surgeon General.

Medical directors will personally and carefully scrutinize the requisitions, and make such changes therein as they may deem proper.

a. The quantities asked for will be computed on the basis of original packages.

b. Proper care in the preparation of the annual requisition should prevent the necessity of requiring for anything but medicines and hospital stores on special requisitions, and the necessity for an additional supply of these should be rare.

c. Special requisitions for instruments, books, bedding, furniture, etc., will seldom be approved.

Nomenclature, etc., to be followed.

6. In all returns, requisitions, invoices, and receipts pertaining to medical supplies, the nomenclature, order of entry, and classification of the Supply Table will be strictly followed, and the copies will be carefully compared.

a. They will be forwarded without letters of transmittal.

7. While it is believed that the quantities of medicines and hospital stores allowed will be ample and usually in excess of the requirements, it is not supposed that they will always meet the necessities caused by the prevalence of epidemics or by the location of troops in unhealthy parts of the country. Medical officers who allow their supplies to become exhausted in such contingencies without giving timely notice of the deficiency will be held accountable for any bad results arising therefrom. Medical officers responsible for ample supplies.

8. In cases of emergency, as sudden epidemics, not admitting of delay, medical directors are authorized to act upon special requisitions, forwarding one copy, with their action, to the nearest medical supply depot, one to the Surgeon General, with an indorsement stating the circumstances, and retaining one; but requisitions for articles not on the Supply Table must, in all cases, be forwarded to the Surgeon General for his action. Requisitions to meet emergencies.

9. Officers in charge of medical supply depots will not issue any article not on this Supply Table, except by special authority of the Surgeon General. Articles not on Supply Table issued only by authority of Surgeon General.

10. In view of the present universal telegraphic facilities between posts and Department headquarters and Washington, D. C., the authority given in A. R. 1648 is revoked. Authority to purchase medicines in emergency revoked.

11. Officers transferring medical supplies will prepare invoices (Form No. 21) in duplicate, one for the Surgeon General and one for the receiving officer. The receiving officer will prepare receipts (Form No. 23) in duplicate, one for the Surgeon General, with a report of the condition of the articles, and one for the issuing officer. The vouchers for the Surgeon General will be promptly forwarded after the transfer is completed. A packer's list (Form No. 20) will, if necessary, be furnished by the issuing officer. Transfer of medical supplies.

12. On assuming charge of medical property great care should be exercised before receipting for cases of instruments, microscopes, and other property of similar character not enumerated on the property papers in detail, to ascertain that the full contents of such cases are present and in good order. Incomplete cases will be so receipted for, and a list of the missing instruments, etc., will accompany the receipt in order that the proper officer may be held accountable for the deficiency. Receipts for property.

a. Receipts, without remark, for cases of instruments and similar property will be considered as evidence that

they are complete and in accordance with the lists of contents given in this Supply Table, and the receiving officer will thereafter be held responsible in accordance therewith.

b. The issuing officer will enter on his invoices, and the receiving officer on his receipts, the condition of all articles not serviceable.

Condition of property received.

13. Medical officers will report to the Surgeon General and to the issuing officer all defects observed in the quality, quantity, or packing of medical supplies. They are requested to freely communicate to the Surgeon General any suggestions tending to the improvement of medical supplies, appliances, etc., and to make reports as to new designs of apparatus, field equipment, etc.

Loss or destruction of non-expendable articles.

14. When non-expendable articles are lost or destroyed the circumstances of the loss or destruction must be fully set forth in a certificate from the officer responsible for the property, or in a certificate of a commissioned officer cognizant of the facts, or, in the absence of these, in an affidavit of a non-interested person. If the evidence is considered satisfactory by the Surgeon General, the responsible officer will be so informed and authorized to drop the articles from his returns. If not satisfactory he will be required to replace them at his own expense.

Expendable and non-expendable articles indicated.

15. The names of all expendable articles are printed in Roman type; those of all non-expendable articles are in Italics.

Supplies to be taken up.

16. Medical officers will take up and account for all medical supplies of the Army that come into their possession, and report, when possible, to whose account they are to be credited.

Medical property needing repair.

17. Surgical instruments and appliances that require and are considered worth repairing will be reported to the Surgeon General through the medical director, with a statement of the repairs needed.

a. When requisition is made to complete a broken or imperfect instrument or apparatus, the name of the maker will be given. Instruments of different makes have been issued, and such information is required to insure the proper pattern and fit of the parts asked for.

Care of property.

18. Medical officers will be held directly responsible for the serviceable and complete condition of all property in their possession except such as may have been rendered unserviceable by fair wear and tear.

a. The responsible officer will cause all instruments in his charge to be examined by a commissioned medical officer at least once each month.

b. He will also twice each year cause all medical property in his charge to be carefully examined by a commissioned medical officer, and verified by the returns, invoices, etc.

19. Medical officers will submit to the medical director at his annual inspection such articles of furniture as chairs, bedside tables, and property of that general class which may need and are considered worth repair or renovation by painting, varnishing, etc. This should be done by post labor, if practicable, request being made to the Surgeon General for authority to purchase necessary material. If not practicable, the medical officer will obtain one or more estimates in detail of cost of repair or renovation of such furniture, etc., as may be designated by the medical director, and forward them through the medical director for the action of the Surgeon General. Repair of furniture.

20. Medical officers in charge of medical supplies will prepare annually, on December 31, unless another date is fixed by the Surgeon General, or when relieved from the charge thereof, returns of medical supplies (Form No. 25) in duplicate, showing those on hand at last return, those received, expended, issued, and sold, and those remaining on hand. Property returns of medical officers.

a. The original of this return will be promptly transmitted to the Surgeon General. The duplicate, with a complete set of vouchers, will be retained for the protection of the officer responsible for the property.

b. In exceptional cases a certified invoice may be offered by the issuing officer, in the absence of a receipt, as a substitute for the proper voucher, together with such additional evidence as he may possess in regard to the transfer.

c. No interlineations or erasures will be made on the returns, and all articles not provided for in the printed headings will be entered in proper order under the heading of additional articles.

21. Articles issued to posts shall not be taken away by the medical officer on being relieved, nor when absent on leave, except by authority of the Surgeon General or of a medical director. Post medical property not to be taken away.

22. Damaged and unserviceable medical property will not be presented to an inspector for condemnation until authority for so doing has been obtained from the Surgeon General. Inspection of damaged and unserviceable medical property.

a. At independent posts and supply depots recommendations relating to unserviceable property will be made by the officer responsible for the same, or by a medical officer detailed for the purpose; at other posts by the medical director of the department.

b. Lists of unserviceable articles (Form No. 43) will be prepared in duplicate, and the property submitted to the medical director upon his annual visit to the post.

c. Medical directors, when they have personally inspected medical property thus submitted to them, may authorize the officer accountable for the same to submit such portion as in their opinion is proper to an officer of the Inspector General's Department, with a view to condemnation, by the following indorsement: "To be submitted for the action of an inspector. By authority of the Surgeon General. (Signed) _____." In this case one copy will be left with the officer accountable for the property and one will be forwarded at once to the Surgeon General.

d. If circumstances should require an inspection of unserviceable property at other times, this list, in duplicate, will be forwarded through the medical director to the Surgeon General, who will give instructions as to the disposition of the property.

23. When condemned medical property is sold at public auction the officer responsible therefor will prepare an account of sales (Form No. 12) in duplicate. He will also prepare an invoice (Form No. 13) in duplicate of the articles sold. The original of this account of sales, accompanied by the original invoice and a copy of the inventory and inspection report, will be sent at once to the Surgeon General; the duplicate copies of each will be filed by the officer with his retained set of vouchers.

24. Medical officers receiving money from the sale of public property will deposit the same, without delay, in the nearest Government depository to the credit of the Treasurer of the United States, taking duplicate certificates of deposit therefor, the original of which will be forwarded by the depositor, without letter of transmittal, direct to the Secretary of the Treasury, Washington, D. C., and the duplicate retained by him. Should it be necessary to incur any expenses in connection with such sales they will be paid out of the total receipts before depositing the latter, in which case the expenses will be supported by properly prepared and receipted vouchers attached to the account of sales.

Sale of medical property.

Proceeds of sale.

25. Medical officers in charge of medical property will not permit it to be used for other than hospital purposes. Medical directors will report every instance in which this regulation is violated. Medical property not to be used for other than hospital purposes.

a. This regulation, however, is not to be construed as prohibiting medical officers from using such medical property as books, instruments, etc., wherever they may deem necessary.

b. Under no circumstances will hospital bedding be used except within the hospital to which it has been supplied, nor will it be used by members of the hospital corps except when on duty in the wards.

26. Hospital clothing shall be worn by patients only during their stay in hospital. Each article will be marked as medical property. When very sick soldiers are transferred from one hospital to another the hospital clothing necessary for their comfort may be sent with them, properly invoiced, and accompanied by a check list giving the names of the men in whose possession it is. Use of hospital clothing.

a. Crutches and similar articles may, if necessary, be similarly transferred with the patient from one post or hospital to another under the provisions of this paragraph.

27. Medicines may be dispensed to persons entitled to medical attendance, and hospital stores to enlisted men and hospital matrons; also to officers at posts or stations where they can not be procured by purchase. Issue of medicines and hospital stores.

a. The regulation that officers and others are not entitled to any articles on the list of hospital stores if such can be obtained at or near their station will be strictly complied with.

b. Hospital matrons are not entitled to hospital stores except when prescribed for them as patients; the regulation is not to be construed as authorizing the issue to them of soap or lye for laundry use.

c. The issue of articles for use in the preparation of cleaning mixtures, cosmetics, perfumery, use with spirit lamps, etc., is strictly prohibited.

28. The exchange of medicines with druggists is prohibited. Exchange of medicines prohibited.

29. There is no authority of law or regulation for the sale or supply of medicines to civilians not employés of the Army, except as patients in hospital. If a medical officer assumes the responsibility of issuing medicines to sick civilians he must comply with the letter and spirit of the decision of the Secretary of War as promulgated Sale of medicines.

in Par. IV, Circular 10, A. G. O., 1890, in justification of his action.

Care of blankets.

30. Blankets not in use should be frequently examined and occasionally shaken and hung out of doors. When stained and soiled, but otherwise in good condition, they should be washed and continued in service. When deemed necessary, authority will be given to have them washed at a steam laundry if one is near the post.

Sectional mattresses.

31. When the present supply of hair mattresses is exhausted the "sectional" mattress in three parts will be issued. Three sections constitute a mattress, but as the end pieces will be serviceable much longer than the middle one, the latter may be inspected and condemned as mattress $\frac{1}{3}$, and the others carried on the returns as mattress $\frac{2}{3}$, etc.

Laundry accessories.

32. Laundry appliances will no longer be supplied to post hospitals. Washtubs will be furnished for the purpose of soaking sheets, clothing, etc., in disinfecting solutions.

Vaccine virus.

33. Requests for vaccine virus should be made direct to the Surgeon General by information slip. On account of its liability to become inert from various causes, especially from heat, it should be asked for in such quantities only as are needed for early use. It will hereafter be supplied only in the form of non-humanized (bovine) virus on charged points, ten points in each package.

Disinfectants.

34. Disinfectants are issued, as are medicines, to be used by medical officers when actually required for some specific purpose. The routine giving out of disinfectants to be scattered about the post is prohibited, and medical directors will, at their inspections, carefully investigate the use of these articles.

The requirements of circular from this office of August 9, 1893, will be strictly complied with.

Antiseptic dressings.

35. Sterilized dressings will not be issued for post use. Their preparation is so simple and so well understood that they should be prepared as needed. First-aid packets will be reserved exclusively for field use, except as occasionally needed for the instruction of members of the hospital corps.

Pens.

36. Pens of four common and generally used patterns will be issued as required, namely: falcon, stub, large fine, and small fine.

Use of field furniture.

37. Field furniture will not be used at posts except when required for the instruction of men of the hospital corps.

38. Medical and surgical chests will be frequently inspected and kept in perfect order for immediate field use. Under no circumstances will their contents be used at posts. Medical and surgical chests.

39. Pieces of canvas of the proper size for litters will be issued as required to replace pieces that may be torn or unserviceable. If soiled, the canvas should be removed from the litter, washed, and replaced. Canvas for litters.

40. Rubber and flexible catheters and bougies will be kept in the catheter box, using talc (French chalk) or glycerin to preserve them. Catheter box.

41. Field tourniquets and first-aid packets for the equipment of company bearers when serving in the field will be kept by the post surgeon until the necessity for such service arises. Before the departure of troops he will issue the required number to each company commander, taking his memorandum receipt therefor. Upon the return of the command the articles will be returned to the post surgeon. First-aid packets are expendable. If tourniquets thus issued are lost while in possession of a company commander, report of the fact should be made to the Surgeon General by the medical officer responsible, stating the circumstances of the loss, and requesting authority to drop the missing articles from his returns. If the command while in the field is ordered to another station, the post surgeon thereat will, upon its arrival, receive the tourniquets and packets, invoices and receipts being exchanged by the issuing and receiving officers. Field tourniquets and first-aid packets for company bearers.

42. Clinical thermometers are issued from the Surgeon General's office upon request by information slip direct, giving number on hand and accompanied by a certificate of the medical officer in case of breakage, giving the name of the person who caused such loss and the number of the thermometer. Clinical thermometers.

43. Record and copying ribbons for typewriting machines should be asked for by information slip as required, as they deteriorate if kept on hand any great length of time. Care should be exercised in the proper use of these ribbons for the purposes indicated by their names. Typewriting accessories.

44. Meteorological instruments will not in future be issued by the Medical Department. When required for use at designated posts they will be obtained by application direct to the Chief of the Weather Bureau, Department of Agriculture, Washington, D. C., specifying explicitly the kind of instruments required. When such instruments are broken or unserviceable the request for Meteorological instruments.

a new one will contain a statement setting forth the circumstances attending the breakage, and the parts of the instrument, if a thermometer, will be returned to the office of the Weather Bureau by mail. Receipts for these instruments will be made out by the post surgeon on forms forwarded with the instruments, and when relieved from duty at the station he will so notify the Chief of the Weather Bureau, in order that the responsibility for the property may be properly transferred. Meteorological instruments heretofore issued by the Medical Department will be borne upon the property returns until broken or worn out. Such as may be issued by the Weather Bureau will not be taken up on these returns. The following will be issued: Maximum and minimum thermometers, rain and snow gauges, and measuring rods.

Ice machines.

45. Ice machines are issued to such southern posts as are unable to obtain by purchase ice for the use of the sick. They are furnished by the Medical Department to supply ice for the use of the sick in hospital, and not for the comfort or convenience of the garrison at large; but surplus ice may be sold in accordance with the provisions of Circular, S. G. O., June 13, 1891. They will be accounted for and invoiced in detail.

Individual equipment.

46. Emergency and field cases, hospital corps pouches, and similar articles of individual use or equipment, will be issued in accordance with the usual personnel of each hospital.

Screens and wire netting.

47. If window and door screens of unusual sizes are required, the requisition therefor should be accompanied by an estimate of cost of having suitable frames made at or near the post. Wire netting will be furnished to complete them and to renew such as have become unserviceable.

Bed screens.

48. When the present supply of bed screens is exhausted no more will be issued from depot. When required, application will be made to have the frames constructed at post, giving estimate of the cost; they will not in future be covered with holland, but sheets will be placed on the screens and frequently washed.

Prescriptions to be placed on file.

49. All prescriptions will be placed on file; those for liquors will be placed on a separate file.

Cocoa matting.

50. Cocoa matting in strips 1 meter wide is supplied for use on the floors of halls, and not for use on stairways or in wards. It should be laid in one strip, and zinc ends will be issued as required, two for each strip. It should not be nailed to the floor.

51. The expense of replating the silver-plated knives, forks, and spoons being about equal to their first cost, such articles will in future, when worn and unsuitable for table use, be submitted to the medical director for inspection, with a view to dropping them as originally issued and taking them up as "common" for kitchen use.

Silver-plated
cutlery.

52. Chemical and bacteriological sets will only be issued to the larger posts, and officers to whom these sets are furnished will be required to make an annual report on December 31, showing what use has been made of them.

Issue of chemical
and bacteriological
sets.

53. Unless modified by special instructions from the Surgeon General, medical directors will be governed by the following general rules as to the disposition to be made of medical property upon the abandonment of a post:

Disposal of med-
ical property upon
abandonment of
post.

(a.) Medicines, dressings, clothing, bedding, and miscellaneous articles in good and serviceable condition should be sent to other posts in the department.

(b.) Obsolete books which have been replaced by more modern ones and all unserviceable property should be submitted to the action of an inspector, with a view to final disposition by sale or destruction.

(c.) Only such non-expendable articles as are in perfect order, including recent medical works, and all instruments which can not be transferred to other posts without unnecessary duplication, should be turned into a medical supply depot.

54. No list of medical books is included in the present supply table, as, owing to the rapid advances in medicine, a large part of any fixed list soon becomes obsolete. Such new books as may be selected by the Surgeon General will be furnished without requisition.

Medical books.

55. The library of the Surgeon General's office is intended for reference rather than circulation, but books that can be readily replaced will be loaned to medical officers of the Army, they being held responsible for the safe return of the volumes within two weeks from the day of their receipt. In special cases this time may be extended. Such books must be sent and returned by express, carefully packed, and the charges both ways must be paid by the borrower. The medical journals of which the library has duplicates may be sent and returned by mail. The Index Medicus is supplied to all posts in order that medical officers may be informed and make use of the latest additions to the library.

Library S. G. O.

COMPOSITION OF TABLETS.

The words pills, tablets, and trochisci are used synonymously throughout the Supply Table. Compound tablets which are not official and are referred to by these names have the following composition :

ALOINI PILULÆ COMPOSITÆ.			LINIMENTUM RUBEFACIENS.		
Aloinum.....	mgms.	8	Camphora.....	mgms.	500
Podophylli resina.....	mgms.	8	Capsicum.....	mgms.	500
Belladonnæ fol. ext. alc.....	mgms.	8	Ext. belladonnæ fol. alc.....	mgms.	500
Strychnina.....	mgms.	0.8	Dissolve one tablet in 30 c. c. of alcohol.		
Oleoresina capsici.....	mgms.	2.7	MISTURA GLYCYRRHIZÆ COMPOSITA.		
ANTISEPTIC.			Extractum glycyrrhizæ.....	mgms.	6
Hydrargyri chloridum corr.....	mgms.	500	Camphora.....	mgms.	2.5
Ammonii chloridum.....	mgms.	475	Acidum benzoicum.....	mgms.	2.5
One tablet to one-half liter of water makes a 1-to-1000 solution.			Opium.....	mgms.	2.5
COPAIBÆ PILULÆ COMPOSITÆ.			Antimonii et pot. tartras.....	mgm.	1
Copaiba.....	mgms.	100	Oleum anisi.....	mgms.	2.5
Resina guaiaci.....	mgms.	24	Each tablet is the practical equivalent of 4 c. c. of brown mixture.		
Ferri citras.....	mgms.	24	PILULÆ CAMPHORÆ ET OPII.		
Oleoresina cubebæ.....	mgms.	40	Camphora.....	mgms.	130
FERRI PILULÆ COMPOSITÆ.			Opium.....	mgms.	65
Ferri pyrophosphas.....	mgms.	65	PILULÆ CARMINATIVÆ.		
Quininae sulphas.....	mgms.	32	Morphinae sulphas.....	mgms.	0.8
Strychninae sulphas.....	mgm.	1	Camphora.....	mgms.	16
HYDRARG. CHL. MITE CUM. SODIO BICARB.			Extractum rhei.....	mgms.	32
Hydrargyri chl. mite.....	mgms.	32	Sodii carbonas exsic.....	mgms.	100
Sodii bicarb.....	mgms.	65	Oleoresina capsici.....	mgms.	2.7
HYOSCYAMI PILULÆ COMPOSITÆ.			Oleum menthæ piperitæ.....	mgms.	5
Extractum hyoscyami.....	mgms.	65	SODII BICARB. ET MENTHÆ PIP.		
Camphora.....	mgms.	65	Sodii bicarbonas.....	mgms.	258
Oleoresina capsici.....	mgms.	3	Ammonii carbonas.....	mgms.	16
Morphinae acetat.....	mgms.	3	Oleum menthæ piperitæ.....	mgms.	5

BOTTLES AND JARS CONTAINED IN DISPENSING SET.

TINCTURE BOTTLES.			SALT-MOUTH BOTTLES.		
1-liter.....	no.	11	500-gm.....	no.	9
500-c. c.....	no.	9	250-gm.....	no.	28
250-c. c.....	no.	21	125-gm.....	no.	22
125-c. c.....	no.	6	60-gm.....	no.	23
60-c. c.....	no.	18	SALT-MOUTH BOTTLES, BLUE.		
TINCTURE BOTTLES, BLUE.			60-gm.....	no.	4
125-c. c.....	no.	2	TOTAL.		
STEEPLE-TOP JARS.			Bottles.....	no.	153
250-gm.....	no.	10	Jars.....	no.	10

Contents in detail of the cases, etc., to which reference is made in the Supply Table.

APPARATUS—COMPRESSED AIR.

CONTENTS.		Davidson's sprays, in set, viz :	
<i>Air container, with gauge</i> -----no.	1	<i>Atomizer tubes, h. r.</i> -----no.	3
<i>Force pump</i> -----no.	1	<i>Bottles, with h. r. caps.</i> -----no.	3
<i>Tubing, thick rubber, silk covered, connecting container with cut-off</i> -----meters.	2.4	<i>Cut-off, metal</i> -----no.	1
<i>Tubing, thick rubber, connecting container with force pump</i> -----meters.	1.2	<i>Stand for bottles</i> -----no.	1
		<i>Tube connector, h. r.</i> -----no.	1
		<i>Tube, wires for cleaning</i> -----no.	2

APPARATUS—RESTRAINT.

CONTENTS.		<i>Strap, bed, as per circular</i> -----no.	
<i>Anklets</i> -----pair.	1	<i>Strap, waist</i> -----no.	1
<i>Keys to lock buckles</i> -----no.	5	<i>Wristlets</i> -----pair.	1
<i>Muff, leather</i> -----no.	1		

In wooden box, with handle and lock.

APPARATUS—SPRAY PRODUCING (Rumbold's, for Petrolatum.)

CONTENTS.		<i>Speculum, nasal, adjustable blades</i> -----no.	
<i>Air bulb, soft rubber</i> -----no.	1	<i>Spray producers, metal. (Nos. 1, 2, 4, 5)</i> -----no.	4
<i>Mirror, hinged, 3 glasses</i> -----no.	1	<i>Tongue depressor, 3 blades</i> -----no.	1

CASE—ASPIRATING.

CONTENTS.		<i>Tube, metallic, with extra wires</i> -----no.	
<i>Needles, aspirating</i> -----no.	3	<i>Tubing attachments</i> -----no.	1
<i>Obturator, blunt, for cannula</i> -----no.	1	<i>Tubing, rubber</i> -----pieces.	3
<i>Pump</i> -----no.	1	<i>Trocar and cannula, with stopcock</i> -----no.	1
<i>Tube, double current, metal, with rubber stopper</i> -----no.	1		

In morocco case.

CASE—CAPITAL OPERATING.

Two patterns of cases under this name have been issued, and will be referred to hereafter as Nos. 1 and 2, in accordance with the dates of issue. The contents are essentially the same, but they may be readily distinguished by No. 1 being a narrow, thick case, containing a leaden mallet, while No. 2, which was a part of most of the late personal sets, is a wide, flat case, and does not contain a mallet.

CAPITAL OPERATING CASE, No. 1.

CONTENTS.		<i>Forceps, artery, fenestrated, spring catch</i> -----no.	
<i>Catling, long</i> -----no.	1	<i>Forceps, bone, gouge</i> -----no.	1
<i>Catling, small</i> -----no.	1	<i>Forceps, bone, long, slightly bent</i> -----no.	1
<i>Chisel</i> -----no.	1	<i>Forceps, bone, long, angled</i> -----no.	1
<i>Drills, with one handle</i> -----no.	4	<i>Forceps, sequestrum</i> -----no.	1
<i>Elevator and raspatory, combined</i> -----no.	1	<i>Gouge</i> -----no.	1

CASE—CAPITAL OPERATING—Continued.

CAPITAL OPERATING CASE, No. 1—Continued.

CONTENTS.					
Hook, double	no.	1	Saw, Hey's	no.	1
Knife, amputating, long	no.	1	Saw, metacarpal	no.	1
Knife, amputating, medium	no.	1	Scalpels	no.	3
Knife, cartilage	no.	1	Scissors, straight	no.	1
Ligature, silk	gms.	5	Tenaculum	no.	1
Mallet, leaden	no.	1	Tourniquet, screw	no.	1
Needle, aneurism, handle and 3 tips	no.	1	Trephine, brush for	no.	1
Needle, key, artery	no.	1	Trephine, conical	no.	1
Needles, surgeon's	no.	12	Trephine, crown	no.	1
Retractors	no.	2	Trephine, handle for	no.	1
Saw, bow, 2 blades	no.	1	Wax	piece.	1
Saw, chain	no.	1			

In mahogany case, with leather pouch.

CAPITAL OPERATING CASE, No. 2.

CONTENTS.					
Bistoury, straight	no.	1	Needle, key, artery	no.	1
Calling, long	no.	1	Needles, surgeon's	no.	12
Calling, small	no.	1	Raspatory	no.	1
Chisel	no.	1	Razor	no.	1
Drills, with one handle	no.	4	Retractors	no.	2
Elevator	no.	1	Saw, bone, 2 blades	no.	1
Forceps, artery, bulbous, slide catch	no.	1	Saw, chain	no.	1
Forceps, bone, gouge, curved	no.	1	Saw, Hey's	no.	1
Forceps, bone, gouge, straight	no.	1	Saw, movable back	no.	1
Forceps, bone, long	no.	1	Scalpels	no.	3
Forceps, lithotomy	no.	1	Scissors, straight	no.	1
Forceps, sequestrum	no.	1	Tenaculum	no.	2
Gouge	no.	1	Tourniquet, screw, with pad	no.	1
Knife, amputating, long	no.	1	Trephine, brush for	no.	1
Knife, amputating, medium	no.	1	Trephine, conical	no.	2
Knife, cartilage	no.	1	Trephine, handle for	no.	1
Ligature, silk	gms.	5	Trocar and cannula, straight	no.	1
Needle, aneurism, handle and 3 tips	no.	1	Wax	piece.	1

In mahogany case, with leather pouch.

CASE—DENTAL.

CONTENTS.					
Burnishers (Nos. 3, 29, 86)	no.	3	Gutta-percha	gms.	30
Chisels (Nos. 77, 135)	no.	2	Handles for instruments	no.	6
Explorer (No. 5)	no.	1	Hone	no.	1
Excavators (Nos. 10, 14, 16, 21, 41, 82, 86, 141, 143, 145)	no.	10	Mirror	no.	1
Files (2 each of Nos. 00, 0, 1)	no.	6	Paper, bibulous	sheets.	6
Forceps, college	no.	1	Scaler (No. 3)	no.	1
			Spatula (No. 1)	no.	1

In small morocco case.

CASE—EMERGENCY.

TABLETS IN 15-C. C. BOTTLES.				
Acetanilidum.....	mgms.	200	Quininae sulphas.....	mgm. 200
Acidum tannicum.....	mgms.	324	Sulphonal.....	mgm. 324
Aconiti tinctura.....	c. c.	0.1	HYPODERMIC TABLETS, IN TUBES.	
Aloini compositæ.....			Apomorphinae hydrochloras*.....	mgms. 6
Antipyrinum.....	mgms.	324	Atropinae sulphas*.....	mgms. 0.65
Antiseptic.....			Cocainæ hydrochloras.....	mgms. 10
Bismuthi subnitras.....	mgms.	324	Digitalinum*.....	mgms. 1
Carminativa.....			Morphinae sulphas*.....	mgms. 8
Cathartice compositæ.....			Nitroglycerinum.....	mgms. 0.65
Chloral.....	mgms.	324	Quininae hydrochloras.....	mgms. 32
Digitalis tinctura.....	c. c.	0.3	Strychninae sulphas.....	mgms. 1
Ergotinum.....	mgms.	130	INSTRUMENTS.	
Hydrargyrum chl. mite cum sodio bicarb.....			Bistoury, curved and straight, of each.....	no. 1
Ipecacuanha et opium.....			Forceps, hæmostatic.....	no. 1
Morphinae sulphas.....	mgms.	8	Ligature, silk.....	gm. 1
Opil tinctura camphorata.....	c. c.	0.4	Needles, surgical.....	no. 6
Phenacetinum.....	mgms.	324	Plaster, isinglass.....	roll. 1
Potassii bromidum.....	mgms.	324	Scissors, straight.....	no. 1
Syringe, hypodermic.....			no.	1
Thermometer, clinical.....			no.	1

* Tablets marked thus are in the hypodermic syringe case.

CASE—EYE AND EAR.

This list does not correspond to the contents of all eye and ear cases; discrepancies should be noted.

CONTENTS.				
Bottles, g. s., 4-c. c.	no.	2	Needle, curved.....no.	1
Catheter, eustachian, h. r.....	no.	1	Needle, stop, curved.....no.	1
Curette.....	no.	1	Needle, stop, straight.....no.	1
Cystotome and scoop.....	no.	1	Needle, straight.....no.	1
Director, lachrymal.....	no.	1	Needles, fine.....no.	6
Forceps, angular, for ear.....	no.	1	Ophthalmoscope.....no.	1
Forceps, cilia.....	no.	1	Optometer (Thomson's).....no.	1
Forceps, fixation.....	no.	1	Probes, lachrymal, double, silver.....no.	4
Forceps, iridectomy, angular.....	no.	1	Scalpel.....no.	1
Forceps, iridectomy, curved.....	no.	1	Scissors, curved on the flat.....no.	1
Forceps, iridectomy, straight.....	no.	1	Scissors, iris (Noyes's), on handle.....no.	1
Hook, blunt.....	no.	1	Scissors, strabismus.....no.	1
Hook, blunt, curved shank.....	no.	1	Scissors, straight.....no.	1
Hook, double.....	no.	1	Scoop and hook, metal handle.....no.	1
Hook, strabismus.....	no.	2	Silk, fine.....gm.	1
Keratome, angular.....	no.	2	Speculum, ear, in nest.....no.	3
Knife (Beer's), cataract.....	no.	1	Speculum, eye, stop.....no.	1
Knife (Graefe's), linear.....	no.	1	Speculum, eye, stop (Graefe's).....no.	1
Knife, iris.....	no.	1	Spoon, lens, h. r.....no.	1
Knife, iris, double-edge.....	no.	1	Spoon, lens, fenestrated.....no.	1
Lid holder, large and small.....	no.	2	Spud, Dix's.....no.	1
Lid holder, hard rubber.....	no.	1	Styles, lachrymal, silver.....no.	2
Mirror, laryngeal.....	no.	2	Syringe (Anel's), with 3 tips.....no.	1
Mirror, laryngoscopic, with head band.....	no.	1	Wax.....piece.	1

In mahogany case, with leather pouch.

CASE—FIELD.*

In wooden case, with leather pouch and sling strap with buckle and snap hooks.

CONTENTS.				
<i>Bistoury, curved</i>no.	1	Ligature, silk.....	gms.	3
<i>Catheter, silver, jointed</i>no.	1	Needles, surgeon's.....	no.	12
<i>Director and aneurism needle</i>no.	1	<i>Probe (Nélaton's)</i>	no.	1
<i>Forceps, artery and needle, combined</i>no.	1	<i>Saw blade, movable back</i>	no.	1
<i>Forceps, bone</i>no.	1	<i>Saw blade, handle</i>	no.	1
<i>Forceps, bullet</i>no.	1	<i>Scalpel</i>	no.	1
<i>Forceps, dressing</i>no.	1	<i>Scissors, straight</i>	no.	1
<i>Knife, amputating, blade</i>no.	1	<i>Serre-fines (Langenbeck's)</i>	no.	4
<i>Knife, amputating, handle</i>no.	1	<i>Tenaculum</i>	no.	1
		<i>Wax</i>	piece.	1

* This is the case recently issued as "surgeon's field case."

CASE—FIELD OPERATING.

This list does not correspond to the contents of all field operating cases; discrepancies should be noted.

CONTENTS.				
<i>Bistoury, curved</i>no.	1	<i>Needle, key, artery</i>	no.	1

<i>Jones's straight</i>no.	1	<i>Wood's (Péan's) large</i>	no.	2
<i>Little's fenestrated</i>no.	1	<i>Wood's (Péan's) small</i>	no.	2

In morocco case.

CASE—GENITO-URETHRAL.

CONTENTS.					
<i>Bougies à boule</i> (Otis's), metal, nickel-plated, Nos. 11, 14, 17, 21, 26, 30.....no.	6		<i>Forceps, urethral</i> (Thompson's).....no.	1	
<i>Catheter, double current, silver</i>no.	1		<i>Gauge, steel</i> (American and French).....no.	1	
<i>Catheter, grooved and tunneled</i> (Gouley's), with stylet.....no.	1		<i>Gauges, pasteboard</i> (American and French).....no.	2	
<i>Catheter and staff, grooved and tunneled</i> (Gouley's), with stylet.....no.	1		<i>Guides, whalebone</i> (Gouley's).....no.	12	
<i>Crin de Florence</i>no.	1		<i>Guides, whalebone</i> (Otis's).....no.	2	
<i>Dilator</i> (Thompson's), modified by Gouley.....no.	1		<i>Knife, beaked</i> (Gouley's).....no.	1	
<i>Director, silver</i> (Gouley's).....no.	1		<i>Sounds, set of 4, fitting one handle</i>set.	1	
			<i>Sounds, tunneled</i> (Gouley's).....no.	3	
			<i>Tenaculum</i> (Gouley's).....no.	1	
			<i>Urethrotome, dilating</i> (Gouley's), with two tunneled tips.....no.	1	

In rosewood case.

CASE—GENITO-URINARY.

CONTENTS.					
<i>Bistoury for meatus</i> (Otis's).....no.	1		<i>Urethrometer</i> (Otis's), hinged.....no.	1	
<i>Bougies à boule</i> (Otis's), metal, nickel-plated, Nos. 8 to 40, inclusive.....no.	33		<i>Urethrometer, rubber covers for</i>no.	12	
<i>Endoscopes</i> (Otis's, h. r.), Nos. 22, 26, and 32.....no.	3		<i>Urethrotome, Maisonneuve's, No. 8, Otis's</i> gauge, with two blades, two filiform bougies and one extra tunneled tip for whalebone guide.....no.	1	
<i>Gauge</i> (Otis's), steel.....no.	1		<i>Urethrotome, dilating</i> (Otis's), straight, with two blades.....no.	1	
<i>Guides</i> (Otis's), whalebone.....no.	2				
<i>Sounds</i> (Otis's), short-beaked, steel, nickel- plated, Nos. 20 to 40, inclusive.....no.	21				

In mahogany case.

CASE—URETHRAL.

But few of these have been issued. It is essentially the same as the genito-urinary case, but the arrangement and contents are somewhat different.

CONTENTS.					
<i>Bougies à boule</i> (Otis's), metal, nickel-plated, Nos. 8 to 46, inclusive.....no.	39		<i>Urethrometer</i> (Otis's), spring.....no.	1	
<i>Catheter syringe, prostatic</i>no.	1		<i>Urethrometer, rubber covers for</i>no.	12	
<i>Gauge, steel</i>no.	1		<i>Urethrotome, dilating</i> (Otis's), straight, with two blades.....no.	1	
<i>Sounds</i> (Otis's), short-beaked, steel, nickel- plated, Nos. 21 to 46, inclusive.....no.	26				

In rosewood case, with lock.

CASE—MINOR OPERATING.

CONTENTS.					
<i>Bistoury, curved</i>no.	1		<i>Forceps, dissecting</i>no.	1	
<i>Bistoury, curved, probe-pointed</i>no.	1		<i>Forceps, dressing</i>no.	1	
<i>Bistoury, straight</i>no.	2		<i>Forceps, esophageal</i>no.	1	
<i>Camula</i> (Bellocq's).....no.	1		<i>Forceps, tracheotomy</i> (Trousseau's).....no.	1	
<i>Catheter, prostatic, silver</i>no.	1		<i>Knife, amputating</i>no.	1	
<i>Catheters, silver, Nos. 3, 6, and 9</i>no.	3		<i>Knife, hernia</i>no.	1	
<i>Director</i>no.	1		<i>Ligature, silk</i>gms.	5	
<i>Ecraseur, wire, two tips</i>no.	1		<i>Needle, artery, with four tips</i>no.	1	
<i>Forceps, artery, fenestrated, slide catch</i>no.	1		<i>Needle, key, artery</i>no.	1	
<i>Forceps, bullet</i>no.	1		<i>Needles, surgeon's</i>no.	12	
			<i>Pliers, wire-cutting, small</i>no.	1	

CASE—MINOR OPERATING—Continued.

CONTENTS.			Sounds, steel, silvered, double-curve, Nos. 1-2, 3-4, 5-6, 7-8, 9-10, 11-12.....no.	6
Probang, oesophageal.....no.	1	Staff, grooved, large.....no.	1	
Probe (Nélaton's).....no.	1	Staff, grooved, medium.....no.	1	
Probe (Sayre's) vertebrated.....no.	1	Staff (Syme's).....no.	1	
Scalpels.....no.	2	Tenaculum.....no.	1	
Scissors, angular.....no.	1	Tonsillotome.....no.	1	
Scissors, curved.....no.	1	Trocar and cannula, curved.....no.	1	
Scissors, straight.....no.	1	Tubes, tracheotomy, double.....no.	2	
Serrefines.....no.	6	Wax.....piece.	1	
Sound, small.....no.	1			

In brass-bound mahogany case, with leather pouch.

CASE—OBSTETRICAL AND GYNÉCOLOGICAL.

CONTENTS.			Funis clamp (Pulling's).....no.	1
Blunt hook and crotchet.....no.	1	Perforator (Thomas's).....no.	1	
Bottle, g. s. and g. c., for Little's saline mixture.....no.	1	Probe, uterine, silver, with silver applicator, set- screw handle, and sponge tent expeller.....no.	1	
Bottle, g. s. and g. c., for styptic.....no.	1	Scurijer (Buttles's).....no.	1	
Bottle, g. s. and g. c., for ergot.....no.	1	Scissors, uterine, curved on the flat.....no.	1	
Catheter (Sims's), sigmoid, metal.....no.	1	Sound, folding (Simpson's).....no.	1	
Cephalotribe (craniotomy forceps).....no.	1	Speculum, vaginal and anal, combined.....no.	1	
Dilators (Barnes's), with stopcocks, etc.....no.	3	Suppository tube, intra-uterine, h. v.....no.	1	
Dilator, uterine, small.....no.	1	Syringe, rubber, self-injecting.....no.	1	
Elevator, uterine (Sims's), with two points.....no.	1	Tampon, small.....no.	1	
Forceps, long (Wallace's).....no.	1	Tenaculum (Nott's).....set.	1	
Forceps, placenta (Loomis's).....no.	1	Transfusion set (Fryer's)*.....no.	1	
Forceps, short (Brickell's).....no.	1	Vectis, with handle.....no.	1	

In leather trunk case, with handles and lock.

* With directions for use, and consisting of a rubber tube with two bulbs, a glass receiver, and giver's and receiver's cannulae.

CASE—POCKET, ASEPTIC.

CONTENTS.			Needle, aneurism, and grooved director.....no.	1
Bistoury, curved.....no.	1	Needle, exploring.....no.	1

In leather case, with metal clips and chamois cover.

CASE—POCKET, PERSONAL.

This case was formerly part of the "personal set."

CONTENTS.					
<i>Bistoury, curved</i>	no.	1	<i>Ligature, silk</i>	gm.	1
<i>Bistoury, curved, probe-pointed</i>	no.	1	<i>Needle, aneurism</i>	no.	1
<i>Bistoury, straight</i>	no.	1	<i>Needle, exploring</i>	no.	1
<i>Catheter, jointed, male and female tips</i>	no.	1	<i>Needle, surgeon's</i>	no.	9
<i>Cautic holder</i>	no.	1	<i>Probes</i>	no.	2
<i>Director, grooved</i>	no.	1	<i>Probe (Nélaton's)</i>	no.	1
<i>Forceps, artery, fenestrated</i>	no.	1	<i>Scalpel</i>	no.	1
<i>Forceps, dissecting</i>	no.	1	<i>Scissors</i>	no.	1
<i>Forceps, dressing</i>	no.	1	<i>Tenaculum</i>	no.	1
<i>Lancet, thumb</i>	no.	1	<i>Tenotome</i>	no.	1
			<i>Wax</i>	piece.	1

In leather case, with leather or gutta-percha cover.

CASE—POCKET, POST.

This name will be used when reference is made to the red morocco pocket case with chamois cover issued during the past few years for post use.

The list of contents is the same as that of the aseptic pocket case, but the aneurism and exploring needles, knives, and tenaculum are detachable from the two hard-rubber or ivory handles. Some cases contain a combined needle and fenestrated artery forceps and a hæmostatic forceps, others a plain artery and a dressing forceps.

CASE—POST-MORTEM.

Most of the post-mortem cases now in use are in accordance with the following list:

<i>Blowpipe</i>	no.	1	<i>Knife, amputating, small</i>	no.	1
<i>Chain and hooks</i>	no.	1	<i>Knife, cartilage</i>	no.	1
<i>Chisel</i>	no.	1	<i>Needles (and thread)</i>	no.	2
<i>Costotome chisel</i>	no.	1	<i>Saw</i>	no.	1
<i>Enterotome</i>	no.	1	<i>Scalpels, assorted</i>	no.	3
<i>Forceps, dissecting</i>	no.	1	<i>Scissors, straight</i>	no.	1
<i>Hammer, steel</i>	no.	1	<i>Tenaculum</i>	no.	1
<i>Knife, amputating, large</i>	no.	1			

Handles of saw and of all knives are of ebony; those of costotome, hammer, and tenaculum are of steel. In mahogany box.

DISSECTING CASE.

This case is dropped from the regular list of the Supply Table, as it is practically duplicated by the post-mortem case. Those now on hand will be issued to the smaller posts in lieu of the larger post-mortem case. Its contents are as follows:

<i>Blowpipe</i>	no.	1	<i>Knife, cartilage</i>	no.	1
<i>Chain and hooks</i>	no.	1	<i>Needles (and thread)</i>	no.	2
<i>Chisel</i>	no.	1	<i>Scalpels, assorted</i>	no.	3
<i>Enterotome</i>	no.	1	<i>Scissors, straight</i>	no.	1
<i>Forceps, dissecting</i>	no.	1	<i>Tenaculum</i>	no.	1

In wooden case.

CASE—STOMACH PUMP.

CONTENTS.				
<i>Foot, metal</i>	no.	1	<i>Pipe, injecting, ivory, straight</i>	no. 2
<i>Gag, mouth</i>	no.	1	<i>Pipe guard, rectal</i>	no. 1
<i>Gag, screw</i>	no.	1	<i>Pump, brass, with lever</i>	no. 1
<i>Hose, filling and ejecting</i>	no.	1	<i>Tube, rectal (O'Beirne's)</i>	no. 1
<i>Pipe, injecting, ivory, angular</i>	no.	1	<i>Tube, stomach</i>	no. 1

In mahogany case, with lock and key.

CASE—TOOTH EXTRACTING.

CONTENTS.				
<i>Elevators (Nos. 6 and 7)</i>	no.	2	<i>Forceps, upper bicuspid and canine (No. 11)</i>	no. 1
<i>Forceps, coin horn (No. 23)</i>	no.	1	<i>Forceps, upper front root (No. 1)</i>	no. 1
<i>Forceps, lower bicuspid and canine (No. 21)</i>	no.	1	<i>Forceps, upper incisor and canine (No. 13)</i>	no. 1
<i>Forceps, lower incisor and bicuspid (No. 14)</i>	no.	1	<i>Forceps, upper molar (No. 18)</i>	no. 1
<i>Forceps, lower molar (No. 15)</i>	no.	1	<i>Forceps, upper wisdom (No. 10)</i>	no. 1
<i>Forceps, universal root (No. 7)</i>	no.	1	<i>Lauget, gum</i>	no. 1

In leather-covered case, with lock and double handle.

CASE OF TRIAL LENSES.

BAUSCH & LOMB.

Twenty pairs spherical convex lenses.

Twenty pairs spherical concave lenses, both from 2 to 160 English inches focus. (D. 20-0.25.)

Eleven cylindrical convex lenses.

Eleven cylindrical concave lenses, both from 8.88 to 160 English inches focus. (D. 4. 50-0.25.)

Six prisms, 2°, 3°, 4°, 5°, 8°, 12°.

Five discs, one white and one ground glass, one plain metal, one metal with hole in center, and one metal with stenopaic slit.

Four colored glasses—red, blue, green, and brown.

One graduated trial frame, No. 3, double cell.

One graduated trial frame, No. 2, double cell, adjustable.

In mahogany case, with lock and two keys.

QUEEN.

Twenty pairs spherical convex lenses.

Twenty pairs spherical concave lenses, both from 2 to 48 inches focus.

Eight cylindrical convex lenses.

Eight cylindrical concave lenses, both from 9 to 72 inches focus.

Five prisms, 2°, 3°, 4°, 5°, 8°.

Three metal discs, one plain, one with hole in center, and one with stenopaic slit.

Four colored glasses—red, blue, green, and brown.

One single lens holder.

One trial frame.

In mahogany case, with lock and key.

INHALER AND VAPORIZER.

This consists of a nickel-plated stand, with boiler, spirit lamp, and detachable handle. There are two attachments, a long inhaler and short deodorizer; both have a reservoir holding sponge saturated with the preparation to be vaporized.

MICROSCOPES.

The names of the manufacturer and of the microscope will be noted on all invoices, receipts, and property returns.

The "Universal" Microscope made by the Bausch & Lomb Optical Company is the latest one issued by the Medical Department. It is in two cases, the contents of which are as follows :

MICROSCOPE CASE.		CASE OF MICROSCOPICAL ACCESSORIES.	
<i>Stand, "Universal".....</i>	<i>no. 1</i>	<i>Microtome.....</i>	<i>no. 1</i>
<i>Glass stage and slide carrier.....</i>	<i>no. 1</i>	<i>Knife for same, one side flat, in case.....</i>	<i>no. 1</i>
<i>Eyepieces, A and C.....</i>	<i>no. 2</i>	<i>Syringe, brass, with four pipes and stopcock, in case.....</i>	<i>no. 1</i>
<i>Eyepiece micrometer.....</i>	<i>no. 1</i>	<i>Turntable, self-centering.....</i>	<i>no. 1</i>
<i>Concave and plain mirror.....</i>	<i>no. 1</i>	<i>Glass slides.....</i>	<i>doz. 4</i>
<i>Objective, 2-inch.....</i>	<i>no. 1</i>	<i>Glass covers.....</i>	<i>gms. 30</i>
<i>Objective, ¾-inch.....</i>	<i>no. 1</i>	<i>Carmine.....</i>	<i>gms. 15</i>
<i>Objective, ½-inch.....</i>	<i>no. 1</i>	<i>Canada balsam.....</i>	<i>gms. 30</i>
<i>Objective, ⅓-inch.....</i>	<i>no. 1</i>	<i>Balsam bottle.....</i>	<i>no. 1</i>
<i>Abbe condenser with iris diaphragm.....</i>	<i>no. 1</i>	<i>Dropping bottle, for oil of cedar.....</i>	<i>no. 1</i>
<i>Double nosepiece.....</i>	<i>no. 1</i>	<i>Gentian violet.....</i>	<i>gms. 4</i>
<i>Iris diaphragm, with substage adapter arranged to take diaphragm or objective.....</i>	<i>no. 1</i>	<i>Bismarck brown.....</i>	<i>gms. 4</i>
<i>Revolving diaphragm.....</i>	<i>no. 1</i>	<i>Methyl blue.....</i>	<i>gms. 4</i>
<i>Bull's-eye condenser.....</i>	<i>no. 1</i>	<i>Fuchsin.....</i>	<i>gms. 4</i>
<i>Stage forceps.....</i>	<i>no. 1</i>	<i>Aniline oil.....</i>	<i>c. c. 60</i>
<i>Camera lucida.....</i>	<i>no. 1</i>	<i>Paraffin.....</i>	<i>kilo. ¼</i>
<i>Forceps.....</i>	<i>no. 1</i>		
<i>Glass covers.....</i>	<i>no. 6</i>		
<i>Glass slides.....</i>	<i>no. 6</i>		
In upright cherry wood case, with handle, lock, and extra hook and post fastenings.		In cherry wood case, with handle, lock, and extra hook and post fastenings.	

NOTE—

Eyepiece A, 2-inch objective gives about 25 diam.	Eyepiece C, 2-inch objective gives about 50 diam.
Eyepiece A, ¾-inch objective gives about 50 diam.	Eyepiece C, ¾-inch objective gives about 100 diam.
Eyepiece A, ½-inch objective gives about 210 diam.	Eyepiece C, ½-inch objective gives about 420 diam.
Eyepiece A, ⅓-inch objective gives about 570 diam.	Eyepiece C, ⅓-inch objective gives about 1140 diam.

The "Investigator" Microscope, made by the Bausch & Lomb Optical Company, and of which many have been issued, consists of the following :

MICROSCOPE CASE.		CASE OF MICROSCOPICAL ACCESSORIES.	
The contents of this case are the same as those of the Universal Microscope, the stand alone being of a slightly different pattern.		<i>Section cutter, with freezing apparatus.....</i>	<i>no. 1</i>
		<i>Razor, large, one side flat, with handle, in case.....</i>	<i>no. 1</i>
		<i>Syringe, 15-c. c., brass, with four pipes and stopcock, in case.....</i>	<i>no. 1</i>
		<i>Turntable, self-centering.....</i>	<i>no. 1</i>
		<i>Glass covers.....</i>	<i>gms. 30</i>
		<i>Glass slides.....</i>	<i>doz. 4</i>
		<i>Carmine.....</i>	<i>gms. 15</i>
		<i>Canada balsam.....</i>	<i>gms. 30</i>
		<i>Balsam bottle.....</i>	<i>no. 1</i>
		<i>Dropping bottle, for cedar oil.....</i>	<i>no. 1</i>
In cases, etc., as above.			

MICROSCOPES—Continued.

A few "Beck's Popular Binocular" microscopes are still in use, and consist of the following in one case, or sometimes in two:

MICROSCOPE.		MICROSCOPICAL ACCESSORIES.	
Stand	no. 1	Section cutter with freezing apparatus	no. 1
Glass (or brass) stage and slide carrier	no. 1	Razor, large, one side flat, with handle, in case	no. 1
Eyeieces	no. 2	Syringe, 15-c. c., brass, with four pipes and stop-	
Eyeiece micrometer	no. 1	cock, in case	no. 1
Concave and plain mirror	no. 1	Turntable, self-centering	no. 1
Objective, 2-inch	no. 1	Glass covers	gms. 30
Objective, 3/4-inch	no. 1	Glass slides	doz. 4
Objective, 1/2-inch	no. 1	Carmine	gms. 15
Iris diaphragm, with substage adapter, arranged		Canada balsam	gms. 30
to take diaphragm or objective	no. 1	Balsam bottle	no. 1
Revolving diaphragm	no. 1		
Bull's-eye condenser	no. 1		
Stage forceps	no. 1		
Camera lucida	no. 1		
Forceps	no. 1		
Glass covers	no. 6		
Glass slides	no. 6		

POUCH—HOSPITAL CORPS.

CONTENTS.			
Ammonie spiritus aromaticus	c. c. 30	Petrolatum, carbolized	gms. 15
Bandages, roller	no. 4	Pins, common*	paper. 1
Candle, in tin box	no. 1	Pins, safety*	no. 6
First-aid packet	no. 1	Plaster, adhesive	spool. 1
Forceps, dressing*	no. 1	Scissors*	no. 1
Iodoform sprinkler	no. 1	Splints, wire	no. 2
Jackknife	no. 1	Sponges, small, in bag	no. 2
Lint, sublimated	gms. 60	Thread, linen*	meters. 18
Needles*	paper. 1	Tourniquets, field	no. 2
		Wool, boracic	gms. 60

POUCH—ORDERLY.

CONTENTS.			
Ammonie spiritus aromaticus	c. c. 30	Petrolatum, carbolized	gms. 15
Bandages, roller	no. 2	Pins, common	paper. 1
Basin, pus	no. 1	Pins, safety	no. 6
Case, medicine, with tablets †	no. 1	Scissors, medium	no. 1
Catheter, elastic (No. 8)	no. 1	Sponges, small, in bag	no. 2
Chloroformum	c. c. 125	Syringe, hypodermic	no. 1
First-aid packet	no. 1	Tags, diagnosis, with pencil	book. 1
Glass, medicine	no. 1	Tourniquet, Esmarch's	no. 1
Lint, sublimated	gms. 60	Wool, boracic	gms. 60

*Articles marked thus are contained in special case.

† The six 15-c. c. bottles in this case contain the following tablets:

Acetanilidum	mgms. 200	Catharticae compositaë	
Antiseptic		Mistura glycyrrhizæ comp	
Carminative		Quinine sulphas	mgms. 200

SURGICAL PUMP.

Allen's Surgical Pump, No. 12, will in future be supplied, and consists of the following outfit :

CONTENTS.				
Bottles, g. s	no.	2	Dilator, uterine, small	no. 1
Bottles (vials)	no.	2	Dilator, uterine, silk covers for	no. 4
Catheter and connector	no.	1	Needles, aspirating	no. 4
Clamp attachment	no.	1	Pipe, breast (nipple glass)	no. 1
Cock, two-way, rubber, for injecting	no.	1	Pipes, syringe (ear, post nasal, vaginal, rectal, and uterine)	no. 5
Connector tube	no.	1	Pump, 9 cm. and tube	no. 1
Connectors with cut-offs	no.	3	Pump, extra tube for	no. 1
Couplings, "Universal"	no.	2	Tampons	no. 2
Cupper, uterine, metal	no.	1	Tampons, extra bags for	no. 4
Cupping glasses	no.	5	Trocar, dome	no. 1
Dilator, uterine, large	no.	1	Tube, stomach and connector	no. 1

In leather bag, with lock and key, and directions for use. Those heretofore issued are of two or three different patterns, and do not exactly correspond to the above list.

SYRINGE—HYPODERMIC.

These syringes as now issued have as accessories, besides two needles and extra wires, one tube of each of the following hypodermic tablets :

Apomorphinæ hydrochloras	mgms.	6	Digitalinum	mgms.	1
Atrophinæ sulphas	mgms.	0.65	Morphinæ sulphas	mgms.	8

The needles and wires are expendable.

THERMO-CAUTERY, PAQUELIN'S.

An improved pattern has recently been adopted. The contents are the same except that the combustion chamber or lamp is omitted, the modified reservoir for hydrocarbon rendering it unnecessary.

CONTENTS.				
Apparatus, double bulb, for supplying air	no.	1	Handle, cannulated, ebony	no. 1
Cautery button	no.	1	Reservoir for hydrocarbon, nickel plated	no. 1
Cautery knife	no.	1	Tube, lengthening	no. 1
Combustion chamber (lamp), nickel plated	no.	1	Tube, rubber	no. 1

In morocco case.

TYPEWRITER.

The typewriting machine, as issued, has the following outfit :

Impression strips (extra)	no.	2	Ribbon shield (extra)	no.	1
Key for mainspring	no.	1	Screw-driver	no.	1
Oil can	no.	1	Spools, for ribbons	pairs.	2
Oil	bott.	1	Type-wheel, large and small capitals	no.	1
Ribbon, copying, indelible	no.	1	Type-wheel, large Roman	no.	1
Ribbon, record, black	no.	1	Type-wheel, small Roman	no.	1

With printed circular of instructions.

VISION-TEST SET.

This set contains—

1. A set of three test cards for use at distances of 13, 16½, and 20 feet, respectively, bearing the test characters authorized by Greenleaf's Epitome of Tripler's Manual, p. 38.

2. A simple optometer consisting of two lenses, one of 4-inch and the other of 10-inch focal length; a brass holder with graduated bar and sliding test-type holder; six test-type cards, numbered 1, for the measurement of defects of refraction and accommodation, and six test-type cards, numbered 2, for the measurement of astigmatism.

3. A set of test wools for the detection of color blindness, consisting of three larger skeins of "test colors" (one pale green, one rose color, called purple, and one bright red); and one hundred and forty-four small skeins of "confusion colors," as follows:

Of pure gray, four shades, two skeins of each.

Of the colors named below, eight shades, one skein of each, all wrapped in a piece of muslin 1 meter square.

Hair-brown.	Orange.	Blue, No. 1.
Lion-brown.	Yellow.	Blue, No. 2.
Olive-brown.	Yellow-green.	Violet.
Wood-brown.	Olive-green.	Purple, No. 1 (Rose Victoria).
Pearl-gray.	Green.	Purple, No. 2.
Scarlet.	Blue-green.	

4. A small paper box in which to keep the extra lens and the twelve test-type cards.

5. A pamphlet of directions for using the vision-test set.

6. A painted tin box containing all the foregoing.

The cases named in the following list, viz. amputating, exsecting, general operating, and trephining, formed the "personal set" issued to medical officers prior to 1868. Upon the adoption in the latter year of the personal set until recently issued individually to medical officers the former cases were transferred to hospitals as post cases of instruments, and a considerable number are still in use.

AMPUTATING CASE.

CONTENTS.				
			Ligature silk	gms. 2
Calling, long	no.	1	Needle, aneurism	no. 1
Calling, small	no.	1	Needles, surgeon's	no. 12
Forceps, artery, spring-catch	no.	1	Saw, bow, two blades	no. 1
Forceps, bone (nippers)	no.	1	Saw, metacarpal	no. 1
Knife, amputating, long	no.	1	Scalpel	no. 1
Knife, amputating, medium	no.	1	Tenaculum	no. 1
Knife, amputating, small	no.	1	Tourniquet, screw, with pad	no. 1
			Wax	piece. 1

In mahogany case.

EXSECTING CASE.

CONTENTS.				
			Forceps, sequestrum	no. 1
Chisel	no.	1	Gauge	no. 1
Foraseur, chain	no.	1	Knife, lenticular	no. 1
Forceps, bone, gouge	no.	2	Retractors	no. 2
Forceps, bone, long	no.	1	Saw, chain	no. 1
			Trephine	no. 1

In mahogany case, with gutta-percha cover.

GENERAL OPERATING CASE.

This set consists of two mahogany boxes with locks and key, carried in a leather or heavy gutta-percha pouch, and containing the following :

Box No. 1.			
<i>Bistoury, curved</i>no.	1	<i>Needle, key, artery</i>no.	1
<i>Bistoury, curved, probe-pointed</i>no.	1	<i>Needles surgeon's</i>no.	12
<i>Bistoury, straight</i>no.	1	<i>Saw, movable back</i>no.	1
<i>Catling</i>no.	1	<i>Scissors, curved</i>no.	1
<i>Forceps, bullet</i>no.	1	<i>Scissors, straight</i>no.	1
<i>Forceps, dissecting</i>no.	1	<i>Scalpels</i>no.	2
<i>Forceps, dressing, curved</i>no.	1	<i>Tenaculum</i>no.	1
<i>Forceps, esophageal</i>no.	1	<i>Tourniquet, field</i>no.	1
<i>Hook, double</i>no.	1	<i>Trocar and cannula, straight</i>no.	1
<i>Knife, amputating, small</i>no.	1	Box No. 2.	
<i>Knife, hernia</i>no.	1	<i>Catheters, metallic</i>no.	3
<i>Needle, aneurism, handle and four tips</i>no.	1	<i>Sounds, metallic, double-curve</i>no.	6
<i>Needle, cataract</i>no.	1		

TREPHINING CASE.

CONTENTS.			
<i>Elevator</i>no.	1	<i>Trephine, brush for</i>no.	2
<i>Saw (Hey's)</i>no.	1	<i>Trephine, conical</i>no.	1
<i>Scalpel and raspatory</i>no.	1	<i>Trephine, handle for</i>no.	1

In small mahogany box.

CHEMICAL SET.

CHEMICALS.

<i>Acid, arsenous As₂O₃</i>grams.	50	<i>Potassium ferrocyanid, K₄Fe(CN)₆3H₂O</i>	
<i>Acid, oxalic, H₂C₂O₄2H₂O</i>grams.	100grams.	25
<i>Alcohol, ethylic, abs. C₂H₅OH</i>grams.	100	<i>Potassium hydrate, KOH</i>grams.	200
<i>Ammonium molybdate (NH₄)₂MoO₄</i>grams.	50	<i>Potassium sulphocyanate, KSCN</i>grams.	50
<i>Anilin C₆H₅NH₂</i>grams.	50	<i>Sodium phosphate, dry, Na₂HPO₄</i>grams.	50
<i>Barium chlorid, BaCl₂2H₂O</i>grams.	50	<i>Sodium hydrate, NaOH</i>grams.	200
<i>Calcium carbonate, CaCO₃</i>grams.	50	<i>Sodium thiosulphate, Na₂S₂O₅5H₂O</i>grams.	100
<i>Calcium chlorid, CaCl₂</i>grams.	50	<i>Stannous chlorid, SnCl₂2H₂O</i>grams.	50
<i>Ferrous sulfid FeS</i>grams.	100	<i>Uranic nitrate, UO₂(NO₃)₂6H₂O</i>grams.	50
<i>Potassium dichromate, K₂Cr₂O₇</i>grams.	100	<i>Methyl orange, HC₁₄H₁₄N₃SO₃</i>grams.	10
<i>Potassium cyanid, KCN</i>grams.	50	<i>Naphthylamine, C₁₀H₇NH₂</i>grams.	5
<i>Potassium ferricyanid, K₃Fe(CN)₆</i>grams.	25	<i>Phenolphthalein, C₂₀H₁₄O₄</i>grams.	10

APPARATUS.

<i>Beakers, 100-200 c. c.</i>no.	6	<i>Crucibles, porcelain, conical</i>no.	4
<i>Bottles, g. s. n. m. 50, 100, 200 c. c.</i>no.	24	<i>Filters, cut, white (in packs of 100)</i>pkgs.	3
<i>Burette</i>no.	2	<i>Flasks, flat bottomed, with lip</i>no.	6
<i>Burette clips</i>no.	4	<i>Flasks, round bottomed, long neck</i>no.	2
<i>Capsules, porcelain, nest of six</i>nest.	1	<i>Flasks, Schuster's, stoppered</i>no.	6
<i>Capsules, porcelain, 100-c. c.</i>no.	6	<i>Forceps, small</i>no.	1
<i>Capsules, porcelain, 250-c. c.</i>no.	3	<i>Funnel tubes</i>no.	2
<i>Corks, india rubber, perforated</i>doz.	1	<i>Funnels, glass</i>no.	2

APPARATUS—Continued.

Glasses, Nessler, 50-c. c.no.	6	Spatulas or spoons, porcelain.....no.	2
Pipe, block tin, 9-mm., for condensing distilled water.....meters.	6	Still, copper, 2-liter.....no.	1
Pipettes, 10-c. c.....no.	2	Stopcocks for rubber tubing.....no.	2
Pipettes, 25-c. c.....no.	1	Test glasses, footed.....no.	12
Pipettes, 10-c. c., graduated.....no.	1	Tubes, Ca Cl.....no.	2
Platinum crucible, 30-c. c.....no.	1	Tubes, U.....no.	3
Retorts, 1-liter, stoppered.....no.	2	Wash bottle.....no.	1
Rods, glass.....no.	12	Watch glasses.....no.	6
		Water bath for drying.....no.	1

MISCELLANEOUS.

Aluminium foil.....grams.	15	Platinum foil.....sq. cm.	20
Copper foil.....grams.	25	Wire gauze.....sq. cm.	50
Glass, blue.....sq. cm.	9	Zinc foil.....sq. cm.	20
Iron wire.....grams.	50	Zinc, granulated.....grams.	100

BACTERIOLOGICAL SET.

Apparatus, filling, and stand.....no.	1	Platinum wire, medium, 10-cm.....pieces.	6
Bath, water, copper.....no.	1	Regulator, gas (Reichert's).....no.	1
Bath, tripod for.....no.	1	Sterilizer, hot-air, cm. 38 x 28 x 25.5.....no.	1
Burner, stand for.....no.	1	Stoppers, solid rubber, assorted.....kilo.	1
Dishes, double (Petri's).....no.	12	Syringe, sterilizable (Koch's), 1-c. c.....no.	1
Filters (Pasteur's), mounted in flask.....no.	2	Test measures, footed, 10-c. c.....no.	1
Flask (Erlenmeyer's), 236-c. c.....no.	12	Test tubes, bath for, copper, with extra cover.....no.	1
Incubator, lead-lined, cm. 45.5 x 21.5 x 30.5.....no.	1	Test tubes, thin glass, 15 cm. x 18 mm. bore.....no.	300
Micro-burner, 1 flame.....no.	1	Thermometer, 0-50° C.....no.	2
Paper, filtering (Swedish).....qr.	1	Thermometer, 0-200° C.....no.	1
Pipettes, 1-c. c.....no.	2		
Platinum wire, heavy, 10-cm.....pieces.	3		

LIST OF BOOKS CONTAINED IN BIRMINGHAM'S MEDICAL LIBRARY.

SET NO. 1, 1882, 7 VOLUMES.

<i>Change of Life</i>Tilt.
<i>Concussion of the Spine</i>Erichsen.
<i>Diseases of Modern Life</i>Richardson.
<i>Diseases of the Rectum</i>Allingham.
<i>Handbook of Treatment</i>Aitkin.
<i>Neuralgia, etc.</i>Anstie.
<i>Scrofula and its Gland Diseases</i>Treves.

SET NO. 2, 1883, 7 VOLUMES.

<i>Diseases of the Ear</i>Pomeroy.

TOOL CHEST.

CONTENTS.

1 awl, brad, and handle, 1 by $\frac{1}{16}$ inch wide.
 1 awl, brad, and handle, $1\frac{1}{2}$ by $\frac{1}{16}$ inch wide.
 1 awl, brad, and handle, 2 by $\frac{1}{16}$ inch wide.
 1 awl, scratch, cast steel, 8-inch.
 1 bit, auger, cast steel, $\frac{1}{2}$ -inch.
 1 bit, auger, cast steel, $\frac{3}{4}$ -inch.
 1 bit, auger, cast steel, 1-inch.
 1 bit, gimlet, double cut, No. 1, cast steel.
 1 bit, gimlet, double cut, No. 2, cast steel.
 1 bit, gimlet, double cut, No. 3, cast steel.
 1 bit, screw-driver, extra cast steel, polished.
 1 brace, Spofford's nickel, improved, 7-inch sweep.
 1 chalk line, soft, with reel and awl complete.
 1 chisel, firmer, o at steel socket, $\frac{1}{2}$ -inch.
 1 chisel, firmer, cast steel socket, 1-inch.
 1 chisel, firmer, cast steel socket, $\frac{1}{2}$ -inch.
 1 divider, with set screw, solid cast steel, 8-inch.
 1 drawing knife, carpenter's, oval blade, 10-inch.
 1 file, handsaw, with handle, 3 inches long.
 1 file, handsaw, with handle, $\frac{1}{2}$ inches long.
 1 file, handsaw, with handle, $4\frac{1}{2}$ inches long.
 1 file, bastard, flat, with handle, 10 inches long.
 1 gimlet, double cut, wood handle, No. 1.
 1 gimlet, double cut, wood handle, No. 2.
 1 gimlet, double cut, wood handle, No. 3.
 1 gauge, marking, beechwood, with set screw.
 1 hammer, nail, adz-eye, cast steel.
 1 hatchet, shingling.

In chest with hasp hinges, corners with angle irons, handle on each end, lock and key.

- 1 mallet, carpenter's, mortised handle, 5 inches long.
- 1 nail puller, large.
- 1 nail set, square, polished, solid cast steel, 4-inch.
- 1 nails, box of, steel wire, assorted ("Solomon Gundy").
- 1 nippers, plier and cutting, combined, 6-inch.
- 1 otter, zinc, No. 2.
- 1 oilstone (Washita), 1½ lbs.
- 1 pinchers, carpenter's, steel jaw, 10-inch.
- 1 plane, fore, double iron.
- 1 plane, jack, double iron.
- 1 plane, rabbet, double iron.
- 1 plane, smoothing, double iron.
- 1 plane, hollow, No. 10.
- 1 plane, rounding, No. 10.
- 1 rasp, wood, oval, with handle, 10 inches long.
- 1 rule, boardwood, square joint, 8ths and 16ths, 1 inch wide, 2-foot.
- 1 saw, hand, 26-inch.
- 1 saw, panel, 16-inch.
- 1 saw, rip.
- 1 screw-driver, solid cast steel, 3-inch.
- 1 screw-driver, solid cast steel, 5-inch.
- 1 screw, hand, 8-inch.
- 1 screw wrench, wrought bar, 10-inch.
- 1 spirit level, pocket, iron top plate, japanned.
- 1 spokeshave, wood, 3-inch.
- 1 try square, rosewood, graduated, steel blade, 9-inch.
- 1 vise, bench, and iron.

MEDICAL CHEST, U. S. ARMY, No. 1.

FOOD CHEST, No. 6.

In this chest considerable vacant space is left in order to allow latitude to each medical officer as to the exact character of the supplies he may wish to carry.

The printed plan inside the cover gives the general arrangement.

Tins labeled "corn starch," "chocolate," and "arrowroot," are included, although not mentioned in the official list of contents, as it is thought that they may contain articles of more general use.

CONTENTS.

Beef extract or an equivalent preparation.
Candles.
Condensed milk, in original cans, 4 kilos.
Soap.
Vinegar, in 1-liter wicker-covered bottles, 2 bottles.
Yeast powder, in $\frac{1}{4}$ -kilo. original cans.

Tins for the following articles:

Beans.
Butter.
Coffee.
Salt and pepper.
Sugar (2 tins).
Tea.

RESERVE CHEST, No. 7.

The contents of this chest will be stated subsequently.

FOLDING FIELD FURNITURE.

A set consists of—

Chairs, arm, folding -----no.	1	Table, mess, folding -----no.	1
Chair, small, folding -----no.	10	Tables, bedside, folding -----no.	10
Cots, adjustable, folding -----no.	10		

PACK SADDLE.

The new pack saddle, issued for use with the medical and surgical chests, at present consists of—

One tree, with pads and latigos.

One breast strap.

One breeching harness.

One crupper.

Two girths.

Two ropes, leather tipped.

One surcingle.

One halter and watering bridle (complete).

Two saddle blankets.

Two canvas covers for medical and surgical chests.

Four split links are carried in each medical and surgical chest for attaching them at varying heights to the pack saddle.

OUTFIT OF SCHUEHLE ICE MACHINE AS PER LATEST CONTRACT.

Ice machine, complete, Jacob Schuehle's patent, capacity 3,000 pounds in 24 hours, consists of—

1 double ammonia compressor.

1 steam engine.

1 boiler, 20-horse power, complete, with feed pump.

1 ammonia condenser.

1 $\frac{3}{8}$ -inch boiler-steel freezing tank, incased in 1-inch pine flooring, with the requisite number of ice cans.

1 steam condenser, capacity sufficient to furnish in 24 hours distilled water for 3,000 pounds of ice.

1 brine pump.

1 patent oil eliminator.

1 side-feed lubricator.

300 fire brick.

Bedplate, necessary pipes, gauges, valves, connections, etc.

Anhydrous ammonia and lubricating oil sufficient to run the machine for two years.

In most cases additional or improved parts have been purchased for these machines, and this list can be considered as approximate only. The ammonia drum or cylinder is a container of the ammonia furnished by contract, and unless purchased from the ice fund does not form a part of the Schuehle machine, being returned when a fresh drum of ammonia is received. The Wood-Bailie machine, of which two are now in use, has an ammonia drum as part of the original machine. See par. 45 and Circular S. G. O., June 13, 1891.

For convenient reference the following lists are appended, although the articles are not issued by the Medical Department:

ISSUED BY THE QUARTERMASTER'S DEPARTMENT.

<i>Ambulance.</i>	<i>Hatchet.</i>	<i>Spade.</i>
<i>Ambulance, harness for.</i>	<i>Ladder.</i>	<i>Stoves, heating.</i>
<i>Ar.</i>	<i>Lamps, bracket.</i>	<i>Tentage, etc.</i>
<i>Clothing, uniforms, etc.</i>	<i>Lamps, hanging.</i>	<i>Travois.</i>
<i>Cooking utensils.</i>	<i>Lockers.</i>	<i>Wheelbarrow.</i>
<i>Dippers.</i>	<i>Piping for ranges and stoves.</i>	<i>Wood saw</i>
<i>Flags.*</i>	<i>Range and fixtures.</i>	
<i>Gas fixtures.</i>	<i>Shovel.</i>	
<i>Hand cart.</i>	<i>Shelter for meteorological instruments.</i>	

* See A. R. 1843, as amended by G. O. 83, 1830. Except guidons, these flags will rarely be issued.

ISSUED BY THE ORDNANCE DEPARTMENT.

<i>Blanket bag.</i>	<i>Haversack strap.</i>	<i>Shotgun, reloading outfit.**</i>
<i>Blanket bag, shoulder straps, pair.</i>	<i>Knife.</i>	<i>Spoon.</i>
<i>Blanket bag, coat straps.</i>	<i>Knife, Hospital Corps.</i>	<i>Sword belt for hospital steward.</i>
<i>Canteen.</i>	<i>Knife, Hospital Corps, scabbard.</i>	<i>Sword-belt plate for hospital steward.</i>
<i>Canteen strap.</i>	<i>Meat can.</i>	<i>Sword frog for belt.</i>
<i>Cup, tin.</i>	<i>Revolver.*</i>	<i>Waist belt.</i>
<i>Fork.</i>	<i>Rifle, Springfield, muzzle-loading.†</i>	<i>Waist-belt plate.</i>
<i>Haversack.</i>	<i>Shotgun, Springfield.‡</i>	

* Revolvers will be obtained from the Post Commander for service in an Indian country, when necessary.

† The issue of two Springfield muzzle-loading rifles to each military post for company bearers' drill is authorized. Decision Acting Secretary of War, 1888.

‡ "Upon requisition of the Post Surgeon (through the usual military channels), duly approved by the Surgeon General, the Ordnance Department will issue, for use at posts west of the Mississippi River, a shotgun, with necessary appendages and ammunition, for the use of members of the Hospital Corps." Decision Chief of Ordnance, 1889.

** The reloading outfit of the shotgun consists of the following. Expendable articles may be replaced by annual requisition upon the Chief Ordnance Officer of the Department:

<i>Brush wiper</i> -----no-----1	<i>Drift</i> -----no-----1
<i>Canister, tin, for powder, 2-lb</i> -----no-----1	<i>Funnel</i> -----no-----1
<i>Canister, tin, for powder, 5-lb</i> -----no-----1	<i>Gun wads, No. 18, pink edge</i> -----no 2,000
<i>Cartridge primers</i> -----no 1,000	<i>Packing box</i> -----no-----1
<i>Cartridge shells, 20-gauge</i> -----no-----50	<i>Powder, musket</i> -----lbs-----7
<i>Charger, adjustable</i> -----no-----1	<i>Priming tool (Frankford)</i> -----no-----1
<i>Cotton cloth</i> -----yd-----1	<i>Shot, No. 8</i> -----lbs-----50
<i>Cotton waste</i> -----lbs-----1¼
